

The ***Sowing a Nonviolent City*** conference is just the beginning of our work. Our work is to invite nonviolence as a way Of life, to stand with those most affected by violence, and to mobilize citizens of our community to action. We provide information about the scale and scope of gun violence so we can better identify action steps that any and all of us can take for the future. We connect those in our network to improve our relationships, resolve, and readiness to ACT.

We ask each participant to commit to this work. Below are some action steps you can commit to. There is also space for you to write your own action steps. On the back of this page are spaces for you to suggest action steps based on your attendance at this conference.

Please check all that interests you and give us your name and contact information so we can inform you of upcoming events and activities and connect you to others with similar interests.

COMPLETE THE REVERSE OF THIS PAGE AND RETURN IT TO THE REGISTRATION AREA BEFORE YOU LEAVE!

Thank you!
